

## WiseLift Table - Versatile & Feature Rich

The WiseLift Table's unique space saving design is your personal area to comfortably work, eat or read. A fixed position table section features an oversized drink holder and 3 USB charging ports. Adjust the multi-use tray to infinite positions of height, tilt and swivel for your personal comfort. The low profile base nestles around a sofa, chair, or bed. The included wheels can be attached for easy maneuverability.

## Unlimited Practicality

### LIFT CHAIRS / RECLINERS

Slides under almost any lift chair or recliner and easily swivels out of the way for full motion of the lift chair.

### BEDS

A must have bedside companion. Easily push the table under the bed for a quick work desk or convenient breakfast tray.

### COUCHES

Perfect for any couch, love seat or sofa with height adjustability.

### STANDING DESK

Maximize your work efficiency and cut back on the sedentary lifestyle of sitting at your desk all day.

## Position the Base to Fit You

The WiseLift Table base has 3 position options. If you are using the wheels, for rolling the table around, the center position is used for maximum stability. For fixed locations with a sofa or lift chair, the left or right positions accommodate either left or right side configurations. This puts most of the base under the furniture for maximum support and low profile.

## Built-In Accessories

- Cup Holder
- Collapsible 3 USB Ports
- 4 Removable Caster Wheels

## Craftsmanship and Engineering

The WiseLift Table is crafted from the highest quality materials. The base and upright are made of heavy gauge welded steel for stability and long lasting durability.

The lift, tilt and swivel motions are smooth and silent. The WiseLift Table requires no maintenance, and is easy to clean with a damp cloth.
